

Wig Maintenance Packages

Owning a custom unit is an investment — and like any investment, it needs consistent care to stay looking beautiful and lasting as long as possible. That's why every custom wig client returns monthly for a maintenance appointment, where both your unit and your natural hair underneath are cared for together. We offer three maintenance package tiers, plus à la carte options for clients who only need a piece of the service. Below is a full breakdown of what's included in each.

1. The Glorious Wig Package

What you get: Our most comprehensive maintenance package, designed for clients who want their natural hair fully treated and trimmed at every visit. It includes:

- Washing and styling of your wig, restoring it back to its original look
- Washing of your natural hair underneath
- A spa treatment for your natural hair, where we assess your scalp and hair to determine exactly what it needs — whether that's moisture, protein to strengthen and rebuild the hair shaft, or a scalp treatment to clear away buildup and debris
- A trim to remove any dead or split ends from your natural hair
- Braiding your natural hair down in preparation for reinstall
- Reinstalling your wig, freshly washed and styled

Best for: Clients who want the full treatment every visit, including a trim, to keep their natural hair as healthy as possible while wearing a wig long-term.

2. The Signature Wig Package

What you get: This tier includes everything from the Glorious Wig Package except the trim — ideal for clients who don't need a trim every visit but still want their natural hair thoroughly treated. It includes:

- Washing and styling of your wig, restoring it back to its original look

- Washing of your natural hair underneath
- A spa treatment for your natural hair, based on a full scalp and hair assessment to determine what your hair needs — moisture, protein, or scalp care
- Braiding your natural hair up in preparation for reinstall
- Reinstalling your wig, freshly washed and styled

What's not included: A trim is not included in this package. Since trims are generally recommended quarterly rather than monthly, this option is a great fit for the months in between.

Best for: Clients on a monthly maintenance schedule who want consistent treatment for their natural hair without a trim at every visit.

3. The Introductory Wig Package

What you get: Our most streamlined maintenance option, covering the essentials to keep both your wig and natural hair clean and properly maintained. It includes:

- Washing and styling of your wig
- Washing of your natural hair underneath
- Braiding your natural hair up in preparation for reinstall
- Reinstalling your wig

What's not included: This package does not include a spa treatment or trim. It's a straightforward wash-and-reinstall service for clients who don't need deeper treatment at every visit.

Best for: Clients who want reliable, consistent upkeep at a more accessible price point, or who supplement this package with occasional spa treatments or trims as needed.

À La Carte Options

For clients who don't need a full maintenance appointment, we also offer standalone services:

- **Natural Hair Wash & Braid Down** — For clients whose wig doesn't need washing this visit. We wash and braid your natural hair underneath, prepping it for you to

reinstall your wig yourself or return separately for install.

- **Wig Wash & Style** — For clients whose natural hair doesn't need attention this visit. We wash and style your wig back to its original form, ready to wear.

Best for: Clients who are confident managing part of their own maintenance routine, or who need a quick refresh between full maintenance visits.

Quick Comparison

Included	Glorious Wig Package	Signature Wig Package	Introductory Wig Package	À La Carte
Wig wash & style	✓	✓	✓	Available separately
Natural hair wash	✓	✓	✓	Available separately
Scalp/hair assessment + spa treatment	✓	✓	—	—
Trim	✓	—	—	—
Braid down & reinstall	✓	✓	✓	—

Every package is built around one goal: keeping your custom unit looking fresh while your natural hair underneath stays healthy, protected, and growing. Clients can move between packages month to month depending on what their hair needs at the time.
